### PROFESSIONAL SUMMERY

Motivated full-stack developer with hands-on experience in developing responsive web applications using React, Node.js, Express, and MongoDB. Skilled in building secure APIs, managing authentication with JWT, and delivering user-friendly interfaces through effective cross-functional collaboration.

### TECHNICAL SKILLS

- **UI/UX Design:** Figma, Adobe XD
- **Front-End:** HTML5, CSS3, JavaScript, Tailwind CSS, Bootstrap, React.js,
- **Back-End:** Node.js, Express.js, Spring Boot, Django, Python, Java, PHP, C++, C
- **Databases:** MySQL, MongoDB
- **APIs:** RESTful APIs, JWT Authentication
- **Tools & Platforms:** Git, Docker, AWS, RoboFlow
- **Networking:** Cisco Packet Tracer

### SOFT SKILLS

- **Teamwork and Collaboration :**  
Working effectively with designers, front-end developers, back-end developers, and other stakeholders.
- **Communication Skills**  
Clear and concise communication for effective collaboration with team members.

### PROFESSIONAL EXPERIENCE

#### Full Stack Developer (Intern) | Unify IT Solutions | Feb 2024 - Aug 2024

- Developed and maintained responsive web applications using React.js and Tailwind CSS, ensuring optimal user experience across devices.
- Collaborated with backend teams to design and implement RESTful APIs, improving data flow and application performance by 20%.
- Implemented secure user authentication systems using JWT (JSON Web Tokens), enhancing application security.
- Worked closely with designers and product managers to translate UI/UX designs into functional, interactive web interfaces.
- Successfully adapted to changing project requirements and consistently delivered high-quality results under tight deadlines, showcasing strong time management and prioritization skills.

## PROJECTS

- **Full-Stack E-Commerce Web Application (MERN Stack):** Built a modern e-commerce platform with a responsive interface, secure user authentication, and seamless backend integration. Technologies Used: React.js, Node.js, Express.js, MongoDB
- **Netflix Clone Website (React JS, TMDB API, Firebase Authentication) :** Developed a responsive Netflix clone using React JS, integrating The Movie Database (TMDB) API for dynamic movie content. Implemented user authentication and authorization using Firebase. Features include movie browsing, trailer previews, user login/logout, and a clean, user-friendly UI.
- **Food Delivery Web Application (React.js):** Designed and developed a user-friendly front end with a focus on responsive design and interactive features to enhance customer experience. Technologies Used: React.js, Tailwind CSS
- **E-Commerce Platform (Django):** Developed scalable and user-friendly e-commerce features, focusing on front-end optimization for an enhanced online shopping experience. Technologies Used: Django, Python, Bootstrap

---

## EDUCATION

### University of Jaffna

Bachelor of Information  
Communication Technology  
(Honours)  
Sep 2020 - Feb 2025

### St. Sebastian's College, Katuneriya

Advanced Level (Technology  
Stream) - 2018

## CERTIFICATIONS

- **Python for Beginners**

Centre for Open and Distance Learning, University of  
Moratuwa
